

Professional Summary: Techno-commercial Product & Delivery Manager with 7+ years of experience delivering data, analytics, and AI-powered digital transformation products across FMCG, Telecom, and Technology sectors. Proven track record of leading global product delivery, managing cross-functional stakeholders and vendors, and translating business problems into scalable digital solutions.

Skills:

- **Product Management:** Discovery Management, Roadmap Planning, Stakeholder Management, Agile Delivery, KPI & OKR Management, Business Analysis & Process Optimization, Delivery Leadership.
- **Data & AI:** Data Analytics & Business Intelligence, Machine Learning, Generative AI, Computer Vision, Predictive Analytics, AI Product Enablement

Experience:

- **Technical Product Manager – British American Tobacco (Sep'23 – Apr'26)**
Global Digital & Data Transformation | Multi-Market Product Delivery
 - * Managed end to end Delivery of Global Consumer Data Model across Canada, Italy, and Romania; a unified consumer analytics platform standardizing KPIs and governance across **CRM, eCommerce, Web, and Connected Device channels**. Partnered with 20+ stakeholders and 4 global vendors, conducting workshops in London to establish operating models and delivery standards.
 - * Launched MyGlo Analytics, integrating **app and device data streams** into executive dashboards that improved visibility on product engagement and device usage trends.
 - * Rolled Out **Competitor Pricing intelligence** product across Germany, Switzerland, and Poland, enabling real-time **pricing insights** and proactive commercial decisions.
 - * Partnered cross-functionally with Marketing, IT, and Data CoE teams on additional initiatives, including **social sentiment insights, POS optimization, automated account creation**, and demand lifecycle management for Imperial Tobacco Canada.
 - * Key tools & platforms: Microsoft Fabric, Power BI, Azure DevOps, SQL, Python, MS Office Suite.
- **Data Scientist, Contextual Marketing – Telenor Pakistan (Dec'21 – Aug'23)**
Customer Growth, Retention & Personalization Products
 - * Designed and launched APOLLO Khaas Offers, a **personalized offers platform** that achieved a **2% daily uptake** and enabled a **fully automated lifecycle management system**.
 - * Delivered the **Customer Base Segmentation** Project, redefining how customer transitions were analyzed and enabling dynamic, segment-specific offer creation across millions of users.
 - * Developed and maintained **predictive and forecasting products** for customer dormancy and monthly behavior trends, improving retention and proactive decision-making.
 - * Implemented **lookalike** Modelling across multiple channels (My Telenor App, Ring Back Tone, Tele-sales), resulting in an average 1% increase in campaign uptake.
 - * Automated **daily reporting and insights** for contextual marketing products, reducing manual reporting time and enhancing business visibility for leadership teams.
 - * Revamped **Next Best Offer (NBO)** and Customer Whitelisting systems, streamlining personalization and driving over 2 million monthly product activations.
 - * Key tools & platforms: SQL, Python, Excel, and campaign management systems.
- **Data Architect – S&P Global Market Intelligence, Pakistan (Jan'21 – Dec'21)**
Enterprise Data Design & Optimization
 - * Designed and Implemented enterprise data models supporting global Market Intelligence products.
- **Data Scientist – VisionX, Pakistan (May'20 – Jan'21)**
AI Products
 - * Led the development of [Get-Dimensions solution](#), a real-time computer vision product that automatically extracted box dimensions using AI, reducing manual measurement time.
 - * Served as technical lead for all **computer vision** initiatives, including object detection and segmentation models for the Spatial Studios team.

- Operations Engineer – Nayatel, Pakistan (Sep'16 – Apr'18)
 - Field Operations & Service Optimization
 - * Led field teams to streamline fiber installation operations and improve customer appointment scheduling, enhancing overall service efficiency.
 - * Coordinated cross-functionally with Civil, ACCESS, and Billing departments to ensure timely network rollout and smooth customer activation.

Awards:

- 2 Silver Performance Awards – **BAT** (Successful delivery of Global Consumer Data Model & Competitor Pricing)
- Highflyer Award – **Telenor** (Successful delivery of APOLLO Khaas Offers)
- 2 Fast Track Promotions – **Nayatel** (Successful delivery of Network Tagging Project)

Education:

- Master of Computer Science (Machine Learning) – NUST, SEECS, Pakistan (2018 – 2022) | *Research: [Towards Effective Parkinson's Monitoring using HARDenseRNN deep learning model](#)*
- Master of Project Management – SZABIST, Pakistan (2017 – 2018)
- Bachelor of Science in Computer Engineering – COMSATS, Pakistan (2012 – 2016) | *FYP: [Gesture controlled robotic car with android application](#)*

Additional Experiences:

- Deep Learning Instructor at Dice Analytics
- Machine Learning Course Creator at Eduonix
- Computer Science Lecturer at International Grammar School

Additional Courses:

- Product & Business: [Certified Business Analysis Professional](#), [Agile Development & Scrum](#)
- AI & ML: [Generative AI Applications](#), [RAG Applications](#), [Vector Databases](#), [Computer Vision](#)
- Data & Analytics: [PowerBI](#), [Predictive Customer Analytics](#)
